Features:

- Government-backed
- Quarterly interest
- Safe investment

PM Vaya Vandana Yojana

Features:

- Assured pension
- Fixed returns

Ayushman Bharat

Features:

- Health coverage

AI Agent Recommendation

"Focus on regular income and capital safety instead of high-risk investments."

FIXED DEPOSIT KNOWLEDGE

FD Tenure Recommendations

Goal	Tenure
Emergency Fund	1 Year
Car Purchase	3 Years
House Down Payment	5 Years
Retirement	5–10 Years

FD Ladder Strategy

₹10,00,000 Example

Amount	Tenure
₹2,50,000	1 Year
₹2,50,000	2 Years
₹2,50,000	3 Years
₹2,50,000	5 Years

Benefit:

- Better liquidity
 - Better interest optimization
-

SAVINGS GOALS BY AGE

Age	Goal
18–25	Emergency Fund
26–35	House + Marriage
36–45	Child Education
46–55	Retirement Planning
56–65	Wealth Protection
65+	Regular Income

EMERGENCY FUND CALCULATOR

Formula:

Emergency Fund = Monthly Expenses $\times$ Number of Months

Example:

Monthly Expense = ₹30,000

Emergency Fund = ₹30,000 $\times$ 6

Result = ₹1,80,000

GOLDEN FINANCIAL RULES FOR AI AGENT

Rule 1

Always save before spending.

Rule 2

Maintain emergency funds first.

Rule 3

Avoid investing emergency funds in risky assets.

Rule 4

Increase investments when income increases.

Rule 5

Review financial goals every year.

Rule 6

Never recommend high-risk investments to senior citizens.

Rule 7

Recommend insurance before investments for earning adults.

Rule 8

Recommend government schemes whenever the user is eligible.

AI AGENT RESPONSE EXAMPLE

User:

"I am 24 years old and earn ₹30,000 per month."

AI Response:

- Suggested Savings: ₹6,000/month (20%)
- Emergency Fund Target: ₹1,80,000
- Recommended Investments:
 - ₹3,000 SIP
 - ₹2,000 FD/RD
 - ₹1,000 Skill Development
- Eligible Government Schemes:
 - PM Mudra Yojana
 - PM Kaushal Vikas Yojana
- Financial Goal:
Build emergency fund first, then focus on wealth creation.

This structure is a strong starting knowledge base for an AI banking assistant and can later be expanded with loans, credit scores, tax planning, insurance, mutual funds, and state-specific government schemes.

explain me all the details which you are provided in a easy so i can use this for ai agent ok

Perfect. Since you're building **Appna Bank AI Agent**, you don't want just data—you want the AI to **understand why it recommends something** and explain it to users in simple language.

Below is an AI-friendly explanation that you can directly use as training content or knowledge base.

1. CHILD CATEGORY (0–12 YEARS)

What is the goal?

Children don't earn money.

The goal is:

- Learn saving habits
- Build education funds
- Teach money value

Why recommend a Savings Account?

Imagine a child receives:

- Birthday gifts
- Pocket money
- Festival money

Instead of keeping cash at home, parents can deposit it in a bank account.

Benefits:

- Safe
 - Earns interest
 - Creates a saving habit
-

Why recommend Recurring Deposit (RD)?

RD means:

Every month save a fixed amount.

Example:

Monthly Deposit = ₹500

Duration = 5 Years

The bank pays interest.

After 5 years:

- Original money grows
- Child gets a larger amount

Good for:

- School fees
 - Future education
-

Why recommend Sukanya Samriddhi Yojana?

Only for girls.

Benefits:

- Government-backed
- Very safe
- High interest
- Tax benefits

AI Recommendation:

"Your daughter is 5 years old. Sukanya Samriddhi Yojana can help create an education fund."

2. TEEN CATEGORY (13–17 YEARS)

What is the goal?

Teach financial responsibility.

Teenagers start learning:

- Budgeting
 - Saving
 - Spending wisely
-

Why recommend Student Accounts?

Benefits:

- Zero balance
- ATM card
- Digital banking

AI Explanation:

"You can start learning banking before becoming an adult."

Why recommend saving 25%?

Example:

Pocket Money = ₹1000

Save:

₹250

Spend:

₹750

This develops discipline.

Why recommend scholarships?

Government gives money for:

- Good marks
- Sports
- Special categories

AI should always check:

Age

+

Student Status

Before recommending scholarships.

3. YOUNG ADULT CATEGORY (18–25 YEARS)

This is the most important age group.

Most people:

- Start college
 - Get first job
 - Start business
-

Emergency Fund

What is it?

Money kept aside for emergencies.

Examples:

- Job loss
- Medical emergency
- Family emergency

Why is it important?

Suppose:

Salary = ₹30,000

Suddenly job lost.

If no savings:

Problem.

If emergency fund exists:

Life becomes easier.

AI Formula

Emergency Fund

=

6 Months Expenses

Example:

Expense = ₹20,000

Emergency Fund

=

₹1,20,000

Why recommend SIP?

SIP

=

Systematic Investment Plan

Meaning:

Invest small amount every month.

Example:

₹1000 every month

Benefits:

- Wealth creation
- Compounding
- Long-term growth

AI Explanation:

"SIP helps your money grow faster than a savings account."

Why recommend PM Mudra Yojana?

For:

- Shop owners
- Startups
- Small businesses

Benefits:

- Government-supported loan
- Less paperwork
- Business growth

AI Recommendation:

"You want to start a business. Mudra Loan may help."

4. ADULT CATEGORY (26–59 YEARS)

Most financial responsibilities happen here.

Examples:

- Marriage
 - Children
 - House
 - Car
 - Retirement
-

What is the 50-30-20 Rule?

Simple budgeting method.

Income = ₹50,000

Needs = ₹25,000

Examples:

- Food
 - Rent
 - Electricity
-

Wants = ₹15,000

Examples:

- Movies
 - Restaurants
 - Travel
-

Savings = ₹10,000

Examples:

- FD
- SIP
- Retirement

Why recommend Insurance?

Suppose:

Salary = ₹10 Lakh/year

Family depends on you.

If something happens:

Family needs support.

Insurance provides protection.

AI Rule

Insurance

Before

Investment

Always.

Why recommend Home Loan?

Benefits:

- Own house
- Asset creation
- Tax benefits

AI should suggest only if:

Stable income exists.

5. SENIOR CITIZEN CATEGORY (60+ YEARS)

Goal changes completely.

Young people want growth.

Senior citizens want:

Safety

Regular Income

Medical Security

Why recommend Fixed Deposit?

FD gives:

- Guaranteed return
- Low risk
- Fixed income

Example:

₹5 Lakh FD

Interest received regularly.

Why recommend SCSS?

SCSS

=

Senior Citizen Savings Scheme

Benefits:

- Government-backed
- Safe
- Higher interest than normal savings

AI Explanation:

"SCSS is one of the safest retirement investment options."

Why recommend PM Vaya Vandana Yojana?

Purpose:

Regular pension income.

Example:

Invest money today

Receive pension regularly.

Good for retirees.

INVESTMENT TYPES EXPLAINED

Savings Account

Purpose:

Daily banking

Risk:

Very Low

Return:

Very Low

Best For:

Everyone

Fixed Deposit (FD)

Purpose:

Safe growth

Risk:
Low

Return:
Moderate

Best For:
Adults and Senior Citizens

Recurring Deposit (RD)

Purpose:
Monthly saving habit

Risk:
Low

Return:
Moderate

Best For:
Students and salaried people

Gold

Purpose:
Inflation protection

Risk:
Moderate

Best For:
Diversification

Mutual Fund SIP

Purpose:
Long-term wealth

Risk:
Medium

Return:
High potential

Best For:
Young adults and adults

WHY DIFFERENT AGE GROUPS GET DIFFERENT RECOMMENDATIONS

A 10-year-old child and a 65-year-old retiree have completely different needs.

Example:

Child:
Needs education savings.

Young Adult:
Needs career growth.

Adult:
Needs wealth creation.

Senior Citizen:
Needs safe income.

Therefore AI should always:

STEP 1:
Ask Age

STEP 2:
Ask Income

STEP 3:
Ask Goal

Examples:

Goal = House

Goal = Education

Goal = Retirement

Goal = Business

STEP 4:
Recommend Products

STEP 5:
Recommend Government Schemes

STEP 6:
Explain Benefits in simple language

MASTER AI AGENT LOGIC

Input:

Age = 32

Income = ₹50,000

Goal = Buy House

AI Response:

1. Save ₹10,000/month (20%)
2. Build ₹3,00,000 emergency fund
3. Buy health insurance
4. Start SIP of ₹5,000
5. Keep ₹3,000 in FD
6. Check home loan eligibility
7. Explore PMAY (if eligible)

Reason:

You are in wealth-building stage and preparing for a major asset purchase.
